STATE LAND OFFICE,
CARSON CITY, Nev., September 2, 1897.
NOTICE IS HEREBY GIVEN THAT THE State of Nevada, under the Act of Congress approved June 15, 1897 (30 Stat. 287), has filed in the United States Land Office at Carson City, Nevada, List No. 290 of lands selected under said Act, and has applied for a patent for said lands; that a part of said list is open to the public for inspection, and a copy thereof, by descriptive sub-divisions, has been posted in a convenient place in said United States Land Office for the inspection of all persons interested and the public generally.
Within the next sixty days following the date of this notice protests and contests against the claim of said State of Nevada to any tract or sub-division described in the list, as the ground that the same is more valuable for mineral than agricultural purposes, will be received and noted by the Register and Receiver of the United States Land Office at Carson City, Nevada, for report to the General Land Office at Washington, D. C.
The following are the sub-divisions described in the list:
SW 1/4 of NW 1/4, and NW 1/4 of SE 1/4 of Sec. 16, T. 34, N. E. 16 E., M. D. B. & M. 30 acres.
A. C. FLETCHER.

DYNAMITE GUNS.

Fifteen Men in Relays Are Required to Work Them.

Dynamite guns, such as are used upon the Vesuvius, are operated upon an entirely different principle from the ordinary powder guns. They have engines and boilers and air compressors and coolers and all sorts of intricate machinery in a house not far away, by which the projectiles are fired. The dynamite or gun cotton or explosive gelatin or whatever the explosive material may be is contained in the projectile only. This projectile is called an "aerial torpedo" by the manufacturers and is exploded by means of a fuse similar to any powder gun's.

Dynamite or any other high explosive cannot be used in an ordinary cannon, because the powder would explode the dynamite before it left the gun, therefore the system of using compressed air came into vogue as the only method of throwing dynamite to any distance. The air is compressed and passed along through various tubes before reaching the gun and is used at about 1,000 pounds pressure to the square inch, which is much less than the power of powder. Dynamite will be exploded at about 5,000 pounds pressure to the square inch. These guns are enormous affairs, smoothbore, 50 feet in length, made of the best iron, in three sections, flanged and bolted together and supported on a steel carriage. The carriage is mounted upon a steel racing ring, so called, and the system of handling is by means of an electric motor. As these guns are covered by a large number of patents they are very expensive, costing the government many thousands of dollars each. Fifteen men in relays are required to work them.

The gunner stands upon a platform on the left side of the carriage, uses a fine telescopic sight, and when all is ready he pulls a lever which allows the compressed air to enter the gun, and the discharge takes place. These guns are all loaded at the breech, and the projectile is handled by a separate carriage. The projectile is about 10 feet in length for the 15 inch gun, and when charged with 500 pounds of dynamite or gun cotton weighs fully 1,000 pounds. It is a steel tube composed of walls three-sixteenths of an inch thick and has a spiral vane at the rear. The fuse is a foot in length and weighs 30 pounds. This fuse contains two pounds and a half of dry gun cotton and a few grains of fulminate of mercury as a detonator. It is set to explode at impact or as the gunner may desire as to time. —Leslie's Weekly.

A TRANSPPOSITION.

It Mangled the Salutation, but the King Controlled His Face.

An American who years ago served as our minister to Spain was fond of telling the following joke upon himself: Shortly after he had become settled in his new home he was hidden to a state ceremonial, where he was to be presented to the king. His knowledge of languages was limited to English and French, and being desirous of addressing the sovereign in his own tongue he took pains to "coach" for the occasion. Several phrases were rehearsed until he felt that he had mastered them. When the critical moment arrived, he saluted the king with great dignity, spoke a few words in Spanish and passed on.

"What did you say?" asked an English gentleman.
"I spoke in Spanish," was the rejoinder. "I said, 'I cast myself at your feet,' which I am told is the most respectful form of salutation."
"Ah, no," corrected a Spaniard, who had been observed to smile at the ambassador's greeting. "You are mistaken. You transposed your words, and quite altered the meaning."
"What did I say?" asked the diplomat.

With a twinkle in his eye the Spaniard made answer, "What you really said was, 'I throw my heels at your head.'"

But the king had not betrayed by so much as the fluttering of an eyelid that anything unusual had occurred. —Harper's Magazine.

No Fixation in Space.

The common idea as to the path of the earth being "fixed in space" is taken exception to by astronomers on the ground that there are few if any things in the domain of astronomy that can really be called fixed space, that fact being that unceasing changes are going on, though these changes are generally so slow as to escape the notice of a superficial observer, but are fortunately periodic, so that they fall within the possibility of computation. Thus the earth's path is not fixed, since the ecliptic undergoes a very slow change, so that, while at present it is a few seconds more than 23 degrees 27 minutes, in about 15,000 years, astronomers calculate, it will be reduced to 23 degrees 15 minutes, after which it will begin to increase again, a change so slow and within such narrow limits that it can produce no sensible alteration in the seasons. —Kansas City Journal.

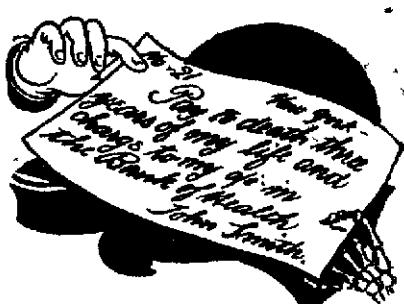

Even Up.

While some Swiss militiamen were resting from their drill one of the men stepped from the ranks to light his cigar from that of the officer. The latter took this evidence of the "spirit of freedom" in good part, but said, "In the Prussian army you could not have done this, John."

"Right you are," was the prompt reply, "but in the Prussian army you could not be an officer."

Red Pipestone Quarry.

Every one familiar with Longfellow's "Hiawatha" remembers the references to the famous red pipestone quarry, which is situated at the extreme eastern boundary of South Dakota. This is the only quarry of the kind known to exist on the American continent.

Biliousness, dyspepsia, loss of appetite, disturbed sleep, nervousness, headache, giddiness and drowsiness, wind and pain or fullness of the stomach after meals, cold chills and flushings of heat, shortness of breath—these are the blank checks of physical bankruptcy. Take them to a physician and he will fill them up with the name of some more or less serious disease. Every time that you carry one of them to him you draw out some of your funds in the Bank of Health. Keep it up, and there will soon be no funds in the treasury.

The man who suffers from these disorders and neglects them will soon be in the relentless grasp of some fatal disease. If he is naturally narrow chested and shallow lunged, it will probably be consumption, if his father or mother died of paralysis or some nervous trouble, it will probably be nervous exhaustion or prostration, or even insanity, if there is a taint in the family blood, it will be blood or skin disease, if he lives in a new or a low, swampy country, it will be malaria; if he lives a life of exposure, it may be rheumatism. There is just one safe course for a man to follow who finds himself out of sorts and suffering from the symptoms described. It is to resort to Dr. Pierce's Golden Medical Discovery. This medicine makes the appetite keen, corrects all disorders of the digestion, renders assimilation perfect, invigorates the liver, purifies and enriches the blood and builds firm, healthy flesh and nerve tissue. It cures almost all diseases that result from insufficient or improper nourishment of the brain and nerves. Bronchial, throat, and even lung affections, when not too far advanced, readily yield to it.

"I took Dr. Pierce's Golden Medical Discovery for Eczema," writes W. Barnhart, of No. 46 West Street, Buffalo, N. Y., "and it completely cured me."

A PARTY WITHOUT PRINCIPLE.

In 1892 a large majority of the people of Nevada, disgusted with the game of fast and loose which the Democratic and Republican parties had been playing at Washington with the free coinage question, organized the Silver party and pledged themselves to support no man for public office who was not pledged by platform and declaration to the free coinage of gold and silver at the ratio of 16 to 1. The remnants of the old parties, who for reasons best known to themselves, refused to join in the silver movement claiming to be in favor of the remonetization of silver, though one of the factions supported Harrison and the other supported Cleveland, both of whom were opposed to free coinage.

The fact that Republicans and Democrats in Congress repeatedly combined to prevent the passage of measures favorable to silver, did not deter the leaders of the old parties in Nevada from declaring at every recurring election for free coinage, though those leaders knew, as did every intelligent person in the country, that they could not consistently call themselves silver men while affiliating with parties that were opposed to restoring silver to its place as a money metal.

The Silver men charged that these old parties in Nevada had no principles and were playing only for spoils. This, of course, the managers denied, but the action of the Republican Convention two days ago proves that 37 of the 67 members, including proxies, who composed that body, are out for spoils and spoils only. That majority tendered Dr. Patterson, the nomination for Governor, a position he did not seek, and refused to nominate him for Congress, a position which he sought and to which he alone aspired.

Had the majority nominated Mr. Newlands or Mr. Wren for Congressman and endorsed Mr. Stewart for the Senate, as these gentlemen are in accord on the great issue of the day, they would have shown some devotion to principles, though not the principles of the National Republican party, but the principles they laid down as the rule and guide of their faith in Virginia City on May 10, 1896, and could claim the merit of being consistent, but they made no Congressional nomination thereby proclaiming to the world that they have no principles upon which a Congressional candidate could stand and they would not permit the thirty men in the Convention who had principles to embody them in the platform and name a candidate who would defend them upon the platform in every town in the State.

How can the nominees of the unprincipled majority go before the people of Nevada and ask for their support? They cannot say in the face of the record of the Convention that they represent principles, because the record proves that they do not.

THE SILVER MEN AND POPULISTS COMPLIMENTED.

The Republican State Convention by a vote of 37 to 30 tacitly admitted that the party in Nevada has no principles. Having reached this conclusion by a majority of 7, the convention decided to make no nomination for Representative in Congress. Dr. W. H. Patterson, a respectable and capable gentleman, and withal a good stump speaker, offered himself for the Congressional nomination, promising to make the campaign at his own expense, but his offer was refused though he was unanimously tendered the nomination for Governor. Dr. Patterson, feeling that he was being outrageously treated in the house of his supposed friends, addressed the convention and in a pointed speech expressed his opinion of the action of the majority and at the close of his remarks withdrew from the body which refused him a nomination for a position for which there was no other candidate and which was left blank on the ticket. That Dr. Patterson had very nearly half the convention and all the spectators with him was clearly manifested when he withdrew, but his sympathizers remained in the convention to see the farce through.

Very many are now asking what the actions of the Democratic and Republican State Conventions, or rather the majorities of those bodies, in making no nominations for Congressman, signify. The one denounces the tariff bill and the other denounces free coinage, yet neither nominates a candidate for Representative in Congress, though a Congressman is the only person on the ticket who will have a voice in determining these questions.

Now, though there are four State tickets in the field there are but two candidates for Congress, Hon. Thomas Wien, the Populist nominee, and Hon. Francis G. Newlands, the Silver Party candidate, neither of whom, the Journal is pleased to say, is polluted with goldbugism and it is gratifying to know that those gentlemen are politically satisfactory to free traders, protectionists, gold standard men and bimetalists.

From the Knights of Pythias of Honolulu comes a warning to their brethren in other domains not to seek the Hawaiian Islands in search of employment or to start in business. They say it is in no sense a new country. There is no opening except for capital to engage in land developments and enterprises requiring large means.

GOLD DEMOCRATS BUSY.

The National Democrats are busy just now. They are the men who nominated Palmer and Buckner for President and Vice President, respectively, to help Mr. Hanna in his fight for McKinley. Ex-Congressman Bynum of Indiana, who is Chairman of the National Committee, was in Chicago yesterday and held a conference with the leaders of the party. They arrived at the conclusion that the Silver or Bryan Democrats would press the silver issue again this fall and they intend to do what they can to defeat them. Chairman Bynum is said to receive \$6,000 a year from the Hanna campaign fund and he is doing what he can to earn his money by getting State Conventions like that of Delaware to straddle the financial question. He is, if that is possible, a more obnoxious goldbug than J. Sterling Morton of Nebraska, Cleveland's ex-Secretary of Agriculture. They will not go into Mr. Hanna's camp, where they would be at home, because they can do more for the gold cause deceiving voters by pretending to fight Hannaleum.

TELEGRAPHIC NOTES.

The proceedings in the Botkin extradition case are in progress in San Francisco. Governor Budd has questioned the right of the Delaware authorities to send papers of extradition for a person who lives in California and who had never been in Delaware. He made the positive declaration that he would not grant the extradition on the showing made by the Delaware authorities unless the papers were perfect.

Secretary Day tendered the President his resignation yesterday and took leave of his Cabinet associates.

The Spanish Evacuation Commissioners have agreed to begin the formal withdrawal of their lines within two days in Porto Rico. They will evacuate Lares, San Sebastian and Aguadilla.

Pointed Paragraphs.

Often an excuse is worse than the offense.

Life after all is but a big bundle of little things.

Responsibility that carries no weight is not responsible.

Genius produces the inventions, while talent applies them.

There is always something elevating about roof-garden entertainments.

No artist, however talented, has succeeded in painting a fragrant flower.

Money cannot buy an ounce of love but it will purchase tons of sympathy.

When a man gets in a hole he is always willing to be done by as he should do.

When a woman reaches a certain age there is no longer any uncertainty about it.

There is a peculiar fascination about many things whose origin is attributed to his satirical majesty.

It never makes much difference to a woman where a man hails from, just so she is permitted to reign over him.

Sparks from a passing locomotive set fire to a stack of hay on the Tom Kane ranch near Death, Elko county. The stables and fences in the vicinity were dry as tinder and the fire spread rapidly to adjoining ranches. The Argonaut says Ed Kelley lost three stacks of hay, Bert Lewis lost one stack and Ed Goodall lost three stacks before the fire was under control. Three hundred tons of hay were destroyed besides fences. Loss \$5,000.

A CARD FROM MR. LESTER.

Tramp Politics.

To the people of the State of Nevada, delegates in nominating conventions and candidates for the Senate and Assembly:— This morning a letter appears in the DAILY NEVADA STATE JOURNAL, recommending the election of Wm. M. Stewart to the Senate of the United States, addressed to Reinhold Sadler, Governor of Nevada, purporting to have been written by Stephen M. White of Los Angeles, California. Also previous letters of like character have appeared in the same and other papers in the State, purporting to have been written respectively by prominent citizens of Illinois, Colorado and Pennsylvania.

It is now asserted that the text of those letters was prepared in Carson City and given out for publication.

Assuming that those letters originated from the persons over whose signatures they appear, I submit that the whole scheme is an insult to the Statehood of the State of Nevada and to the intelligence and American manhood of every inhabitant of the State. It appears that Mr. Stewart is better known in other States than he is in this State.

The personnel of the Senate of the United States is based on Statehood representation, to consist of two members respectively, inhabitants of the individual States they represent.

If the insult goes unchallenged that the inhabitants of the State of Nevada do not possess the needed intelligence and patriotism to enable them to select a Senator of the United States in pursuance of the fundamental doctrines of the constitution of the United States from the bona fide inhabitants, then for a like reason should they select a State ticket from the inhabitants of other States, for example, a Governor from Rhode Island, Lieutenant Governor from Michigan, Justice of the Supreme Court from Maine, Secretary of State from Minnesota, State Treasurer from Virginia, State Controller from Oregon, Surveyor General from Illinois, Superintendent of Public Instruction from Alabama, Board of Regents of University of Nevada from South Carolina, five District Judges from Ohio, State Central Committee from Indiana.

To elect representatives, State and National, from the inhabitants of a State is a function of Statehood.

If the State of Nevada is incapable of selecting such representatives from her bona fide inhabitants, then that fact raises very seriously the question, is Nevada a State? If you wish to know about me ask my neighbors.

Your obedient servant,
B. F. LESTER.

*a6tf

A CARD FROM MR. LESTER.

He is a Candidate for Senator of the United States and Nothing More.

RENO, August 22nd, 1898.

EDITOR NEVADA STATE JOURNAL:—Sir: In your issue of August 18th, 1898, you had the honor to say: "Hon. B. F. Lester of this county has been favorably mentioned as a candidate for State Senator."

Do me the kindness, please, to say that I am a candidate for a Senator of the United States from the State of Nevada, also that there is at the present time no other office in the gift of the people of the State of Nevada that I will accept, and oblige

Your Obedient Servant,
B. F. LESTER.

Freezing at the North Truckee school house by Rev. T. W. Chatburn of Independence, Mo., S. F. M.

Bale ties, also forks and other tools for farmers and stockmen at the Reno Mercantile Company's store.

W. G. Doane, graduate optician of the Philadelphia College of Optics, is fitting many spectacles with glasses who have been suffering from defective eyesight.

Pete Dalton and wife were passengers for San Francisco last night on a few days visit. Pete says he is through haying and he concluded that he and Mrs. Dalton were entitled to a holiday.

At a special meeting of the Council of Apostles, Lorenzo Snow was chosen President of the Church of Jesus Christ of Latter Day Saints, to fill the vacancy caused by the death of President Woodruff.

Mrs. E. D. Koch and Miss Ida Dalimore of Ogden are in town and will exhibit a lot of figured china, paintings, embroidery and lace work. They will occupy a space of three sections in the pavilion.

Miss Gibbs invites the public to inspect her elegant line of millinery novelties to be on display September 14th, 15th, 16th and 17th. Styles correct effects rich, charming and sure to please. Souvenirs. S-11-w1

G. W. Likens of Carson visited the JOURNAL office yesterday. Mr. Likens, who is an old resident of the State and a competent assayer, is favorably mentioned in connection with the Superintendency of the Carson Mint.

Dr. Stubbs left for San Francisco last evening on business connected with the University. He will return next Wednesday. Harold, son of Mr. and Mrs. Geo. H. Taylor, accompanied the Doctor and will visit his aunt in the city.

Since silver mining received a black eye, the population of Caribou, Colorado, has dwindled from thousands to twenty. The camp produced \$12,000,000, and there is abundance of ore, but it cannot be worked at the present price of silver.

Henry Ritter will assist in straightening up complications to-day, by providing fusion drinks. He has all of the latest combinations and a delegate can call for anything that will make him feel important or give him the idea that he is running all three conventions.

Thomas Dick, ex-County Commissioner of Storey county, visited Reno yesterday. He says that times are hard on the Comstock compared to what they have been, but very many are hopeful that deep mining will be resumed and that new bonanzas will be developed in the great lode.

H. J. Thyes' resort is in the very center of the political and convention whirlpool to-day. He has made extra preparations to refresh the delegates from all three conventions. His lunch will be up to the standard and the liquid embellishments will range from Jeffersonian toddies for the Democrats, Bryan cocktails for Silvermen to root-beer and tanzey for the Pops.

H. H. Hamlin, the optician, is here with the finest line of goods ever handled. Anyone he has furnished glasses to within the past year can have them exchanged, without cost, if they are not properly fitted. Mr. Hamlin may be consulted at the Arcade Hotel. By patronizing him you have the advantage of being in a position to have your glasses exchanged without cost.

The Palace Dry Goods and Carpet House cordially invites the public to attend the exhibition of their new fall and winter dress goods, silks, furs, capes, jackets, tailor-made suits, also wrappers, waists, ladies' children's and men's underwear, hosiery, kid gloves, and many other goods. Commencing Monday, September 19th and continuing through the week, the Palace will make the opening displays of their incomparable collection of exclusive styles in dress-goods, silks, capes, jackets and furs. Be sure to attend.

FINANCIAL BLUNDERS.

Wall Street and the Bondholders Lead the Administration into a Wilderness of Trouble.

EDITOR JOURNAL: With a Treasury balance of upwards of \$900,000,000 and with a large amount of money still due the Government from the sale of bonds, and with the War Revenue Act pouring into the Treasury a half million dollars daily, the folly of the recent bond issue becomes "fearfully apparent."

Wall street in its eagerness to absorb more bonds has over-reached itself, and although the amount of bonds issued is but a small fraction of the amount bid for, yet the strain on Wall street—the associated banks of New York—has been so severe that to-day one-half of them are below their reserve limit of lawful money and are keeping open house because they control the financial policy of the Government, and the officials dare not enforce the law against them.

The Government will attempt to rescue Wall street from the necessity of issuing clearing house certificates by buying bonds at a high premium and by paying interest on other bonds in advance.

Mr. Editor, the foregoing facts show that the finances of this country are in a most deplorable condition. The Administration has been favored with the most favorable conditions that could be imagined. Famines abroad and good crops at home has given us a trade balance—for the last fiscal year—of \$815,000,000 in our favor. The production of gold has been the largest in the history of the world, and yet times, for a great majority of the people, are getting harder, prices of farm products are rapidly declining, woolen mills and cotton factories are closing down and our indebtedness to aliens is rapidly increasing.

Perhaps, when trade and crop conditions again become normal and we have passed through a few more financial panics, the people will elect a President and a Congress that will inaugurate a financial policy in the interest of the whole people, and furnish a currency in sufficient volume to enable the people to transact their business, independent of the goldbugs of Wall street and Europe.

RENO, Sept. 16, 1898.

Shaw's Company.

The success which has attended Sam T. Shaw's Company since they began their present season has been the subject of surprise to many who are unable to comprehend the cause. The succession of crowded houses, the personnel of the audiences, and the satisfaction everywhere expressed, suggested to the Music and Drama of San Francisco to send a special representative to the McDonough Theater, Oakland, where the company recently played, to ascertain the exact status of affairs, so to speak. Says he:

"The cause is apparent at once. Shaw has gathered around him a company of more than average talent; they appear as ladies and gentlemen, they dress with taste and up to date, and are generally subject to a discipline not usually found in high-priced companies, and never before in a 10, 20, 30. Aside from this special scenery is carried for each piece, an orchestra, who appear in evening dress, and a full uniformed concert band, features well calculated to capture the public. However, it is the performance that is of most importance to the patrons of any house, and it is an actual fact that Shaw's people give more than general satisfaction in this respect. The star, himself, is an actor of no mean ability, especially in character work, and there are several members in the company who have decided ability in certain lines."

To-day's Conventions.

Three County Conventions will be held to-day and the political pot will be bubbling all over town. The Silver Convention will meet at the Wheelmen's Hall at 10 o'clock, the Democratic Convention at the Court House at the same hour and the Populist Convention at Clough & Crosby's Hall, also at 10 o'clock. Up to a late hour last evening no special program had been arranged. Various plans for fusion had been suggested, but nothing definite had been settled upon. Many advocate fusion on one good strong ticket composed of good men who will have the best interests of the country and town at heart and will protect the taxpayers. So far there are few contests and it may be possible to arrange all differences amicably and run one ticket.

A Reno Boy in Honolulu.

Willard Gentry, who enlisted in the Engineering Corps from Reno and left San Francisco for Honolulu on August 6th, writes his parents, Mr. and Mrs. Lou Gentry, that he is well pleased with his location and the life of a soldier. His Corps is situated at the Queen's Palace and he says they have all the comforts one could desire. The climate is lovely and fruits and flowers plentiful. He anticipates a return to the United States about the last of October, but of course nothing can be said as yet definitely as to their future movements. Oscar Phipps, another Renoite, is in the same Corps.

The Great Wallace Show.

At last Reno is to have a circus. The above big shows will exhibit at Reno Tuesday, Oct. 4th: The world's most wonderful acrobatic family, the nine Nelsons, are with the Great Wallace Shows. A challenge of \$10,000 is issued by Mr. Wallace to produce their equals in Europe or America.

Sol Hilp and W. B. Graham of White Pine county, after taking in the State Conventions, left for home last evening.

Royal makes the food pure, wholesome and delicious.

WEATHER BULLETIN.

(Copyright, 1898, by W. T. Foster.)
ST. JOSEPH, Mo., September 17.—My last bulletin gave forecasts of the storm wave to cross the continent from September 20th to 24th.

The next disturbance will reach the Pacific coast about 24th, cross the West of Rockies country by close of 25th, great central valleys the 26th to 28th, Eastern States 29th.

Warm waves will cross the west of Rockies country about 24th, great central valleys the 26th, Eastern States 28th. Cool wave will cross the west of Rockies country about the 27th, great central valleys the 29th, Eastern States October 1st.

Temperature of the week ending S. A. M. October 3d will average about normal generally.

A general cool wave will pass over the United States from the west about 19th to 24th followed by a wave of moderately high temperatures from the 27th to 30th.

A hot wave will pass over the Southern States about the 24th to 26th, followed by a very considerable fall that will bring light frosts to the northern portions of the cotton belt.

Severe storms may be expected in the Southern States about the 25th to the 29th.

Where continuous dates are given, as the 25th to the 29th, the earlier dates are always meant for western portions of the United States or Canada, and the later dates for the States toward the Atlantic coast.

These bulletins gained a series of victories when the high temperatures of September 3d to 5th, the severe storms of about the same dates and the cool wave of the 8th to the 11th, crossed the continent.

DEMOCRATS NOMINATE NEWLANDS.

The State Central Committee Puts Him on the Ticket.

The Executive Committee of the Democratic State Central Committee nominated Hon. Francis G. Newlands for member of Congress. Mr. Newlands is now a nominee of the Silver Party and of the Democratic party for Representative in Congress.

Beats the Klondike.

Mr. A. C. Thomas, of Marysville, Tex., has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption accompanied by hemorrhages; and was absolutely cured by Dr. King's New Discovery for consumption, coughs and cold. He declares that gold is of little value in comparison with this marvelous cure; would have it, even if it cost a hundred dollars a bottle. Asthma, Bronchitis and all throat and lung affection are positively cured by Dr. King's New Discovery for consumption. Trial bottles free at S. J. Hodakinson's Drug store. Regular size 50c. and \$1.00. Guaranteed to cure or money refunded.

An Artist.

Charles Holman of Salt Lake City, and a very young man, is in town doing sign writing. Mr. Holman is an expert with the brush either in water colors or oil and his window signs are something new and very attractive. He put one in water colors on the Porteous Company's window yesterday, accomplishing the work in a few minutes. This character of sign is a new novelty in the art, as it can be painted on a show-window in a short time and can be quickly changed as it washes off the glass. During Fair week such signs would be attractive and business men can find Mr. Holman at the Porteous Company's store.

Important to Working Men.

I have just received a complete and large stock of gent's furnishing goods, overalls, underwear, socks, gloves, neckties, collars, cuffs, etc., direct from the factory. Also the celebrated Bull Britches and Levi Strauss overalls in all sizes, which I am selling at prices that defy competition. I have a large assortment of fine all wool blankets, buggy robes, saddle blankets and quilts. I have always on hand a complete stock of all the leading brands of cigars, cigarettes and tobacco which I sell at wholesale and retail. A free employment office in connection with the store.

A. NELSON.
*jy80tt

New Goods, New Novelties.

S. Emerich has returned from San Francisco and has just opened up one of the finest stocks of dry and fancy goods ever brought to the city. His line of dress goods cannot be excelled and in the latest novelties in his line is strictly up-to-date. His special facilities for buying has afforded him an opportunity to offer his customers special advantages in prices and one is sure to secure a bargain at his store. Watch for his new ad in next issue.

BREVITIES.

Judge Webster left for Pyramid yesterday morning on a two or three days fishing trip.

Prof. McDowell took the train for Sacramento last night and will attend the California State Fair.

Hon. S. Sumnerfield will leave for the East this morning on a couple of months' visit at his boyhood home.

The Woman's Guild of Trinity Church will meet with Mrs. Wm. Pluniger, on Second street, this afternoon at 2 o'clock.

For meat delicacies, fancy roasts of mutton, pork or beef or extra fine corned beef try Stewart and Meiss of the Reno Market.

P. J. Kelly finished haying Thursday night. He has a splendid crop and is generally satisfied with himself and everybody else.

There was a large exodus of Republican delegates to the State Convention and candidates, yesterday morning. All returning to their homes.

Captain Stoddard came down from Carson last evening. He reports that the muttering out of the battalion will commence at Carson to-day or Monday.

For a splendid roast or boil for tomorrow's dinner, leave an order at Dixon Bros' Market. They always have the prime meats that can be secured.

Sauer and Grob are always accommodating and try to please their customers. If a fine roast is wanted, a leg of mutton or pickled meats give them an order.

J. J. Hill Jr. a sergeant in the Nevada Cavalry troop of Torrey's regiment has reached his home at Winnemucca, from Jacksonville, Florida. He is quite ill.

Block and Clausen's lunch to-day will be extra fine and a customer can be served without delay if in a hurry. The best of liquid refreshments can also be found at the Washoe Lunch Counter.

Anheuser beer at the Monarch is a healthful and refreshing beverage. And there is nothing like it to quiet an angry candidate or delegate as quickly and make him feel at peace with the whole world.

COMSTOCK DEEP MINING.

Favorable Report on the Proposition.

The Executive Committee of the Comstock Companies appointed to inquire into the feasibility of draining the lower levels of the Comstock met in San Francisco and received the reports of the several Superintendents. The reports are published in the San Francisco Post and they show that in several of the mines pay ore was found below the level of the Sutro tunnel, at points ranging from the 1800 to the 3300 level, the deepest point reached. The Superintendents do not hesitate to advise the expenditure of the money necessary to install and operate a complete modern pumping plant for the drainage of the lower levels of the Comstock.

Free Pills.

Send your address to H. E. Bucklin & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in cure of constipation and sick headache. For Malaria and liver trouble they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to the stomach and bowels greatly invigorate the system. Regular size 25c. per box. Sold by S. J. Hodakinson's Druggist.

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by, S. J. HODKINSON.

Military Opening.

Miss A. Motley invites your attention to her Fall display of French Pattern hats and millinery novelties on Thursday, Friday and Saturday, September 15th, 16th and 17th. *s18w

Slow Barcelona—Slower Madrid.

Barcelona is a great trading port, about on a level with Marseilles. It has grown very much within recent years. The Barcelonense consider themselves a model to all Spain in the matter of industry and in common sense, yet in this town, which is really a handsome place and rich, the head telegraph office is in the suburbs; there is only one branch office in town, and messages have to be sent from that by hand. The postoffice is well away from the port in a by-street. If you are there on business, you will find as likely as not that one clerk is in attendance out of an immense staff. He will probably be very polite, but he will put his hand to a pen or a bundle of letters as if he feared they would burn, and Barcelona is a model of smartness compared with Madrid. One wonders what would happen to the dawdling officials one sees at these places if they were transported by some malignant fairy to St. Martin's-le-Grand. Madness would probably be their fate if they made an effort to meet the call. But then they would not. The hurry and drive would simply revolt their sense of what was due to a gentleman.—Pall Mall Magazine.

Opinion is a light, vain, crude and imperfect thing settled in the imagination, but never arriving at the understanding, there to obtain the tincture of reason.—Ben Jonson.
